Our procedure

According to your demand, we will provide profile of our professionals who have the expertise of relevant information technologies and skill-sets you require, as you can communicate with them to take an interview. We will provide a trial development work which may be a part of your massive project to help you decide whether you are going on for a long term relationship with us or not. We will provide pricing on a monthly or hourly or project rate for engineers according to the technical level, programming expertise required, and the project scope.

At the commencement of new strategic partnerships, when the service begins, we can communicate directly by email, instant messenger, or telephone, so that the offshore team members can respond promptly working in conjunction with your team. You can control the progress of the offshore team by web-based project management tools. We can submit daily or weekly progress reports tailored to customer needs.

8.5. Competitors:

We have some competitors in the local and international market but our product and service is so much demandable in the national & international market, that the competition can not make any effect in the Market.

8.6. Customer Value Proposition:

We have been concentrating on developing awareness among the companies who were still not well informed of the immense potentials of ICT as a whole, and we are committed to deliver quality products as bare minimum cost to ensure rapid growth of such companies and other end-users. To help our clients to be able to cope with the market demand, we have been developing and implementing customized software, web pages, graphics and animation.

So far we have achieved a potential market by:

- Providing prompt and cost-effective ICT solution
- Designing hosting and maintaining number of website which could fulfill the needs and demand of the customers
- Developing customized POS programs for superstores
- Designing , effecting and administering local area network (LAN)
- Implementing search engine optimization for local website
- 24x7 business throughout the globe
- Greater customer satisfaction and feedback systems
- Help explore new markets in different regions

Our technical solutions are flexible enough to accommodate changes when required to suit the appropriate needs of the clientele and are customizable according to customers needs. But furthermore, the prospective customers will accept our product and services because.

8.7. Business Partners:

JR ENTERPRISE LIMITED has already been an established and well known company in the market for the past 2 (two) years. Thus, all its existing clients would automatically add to our newly formed company. Further, the international exposure of JREL in terms of connection with the foreign educational institutions would help us become known to them as well providing ground for attracting foreign customer seeking ICT services at the ever competitive price in the world.
