▶ Scenario bright for outsourcing work in Bangladesh

FE Report

Bangladesh has emerged as a potential market of outsourcing business. Periscope Inc.com is registered both in New York and Bangladesh and recently acquired a unique distinction of featuring in a US magazine as a company doing business to bring outsourcing work to Bangladesh.

Sharif Ahmed, a member of the Bangladeshi diaspora in the US, is the chairman and chief executive officer (CEO) of the company.

Crain's Business New York, in a report filed by Samantha Marshall, quoted Lilach Nachum, professor at Baruch College's Business School, as saying that "Bangladesh is definitely emerging as the next centre of outsourcing."

The overall scenario looks bright for more outsourcing work in Bangladesh. In a recent speech in the capital, the Cairn magazine article quotes a Cisco System's executive estimating that Bangladesh could get 10 per cent of the \$142 billion dollar IT and marketing outsourcing work that is 20 per cent off India's share.
