
Company Profile

Company Name: **Iconic IT Systems Ltd.**

Company Shot Name: **IISL**

Overview

Although a very new firm, **Iconic IT Systems Ltd.** is one of the fastest growing IT firm in Bangladesh. Date of incorporation in **RJSC** is 13th November 2014. Over the last few months, we have successfully completed some of the very prestigious projects. We have also, earned immense appreciation and confidence of our clients. Relatively educated and highly skilled team, dedicated to deliver the optimized solution to the clients using all the latest technologies are our main strength.

Our major focus area has been building solutions for the Capital Market industry. We have implemented multiple securities trading back-office systems, to help automate the entire post-execution trade life-cycle management for customers in major capital markets. Our customizable back-office solution helps in shortening the securities processing and settlement life cycle by enabling intra-firm and inter-firm straight through processing, virtually eliminating manual interventions to increase productivity in back office operations, minimizing costly process exceptions, and reducing undesired exposure to financial risks.

Mission

With passion, pride and speed, we actively communicate with our customers to deliver insightful automotive products and services that exceed their expectations.

Vision

Our vision is to be the best company in the Bangladesh in the eyes of our customers, shareholders, communities and people. We expect and demand the best we have to offer by always keeping our values top of mind.

iConicMobileApp

Completed Project

The Back office is almost the most vital aspect of the broker's operations. While trade is the backbone of his business, it is the back office that keeps track of the relationship and delivers the accounting and settlement that completes the deals.

The solution offers complete functionality for mid and back office operations and integrates seamlessly with your front office software that has direct market access.

iConicTrade is a web based, Enterprise Reporting Solution (Repro) for custom-building high-quality, scalable, secure, web-enabled, enterprise-class reporting systems, at a much lower total cost of ownership. It has been successfully deployed in top-tier companies, generating thousands of reports in various business areas - client reporting, portfolio reporting, risk management reporting, and regulatory reporting and for other operational reporting purposes.
